

Individuals **transmitting** on frequencies below must comply with all FCC requirements and assume all risks associated with their use except during an **actual** civilization collapse or **serious** emergency condition threatening life/limb or property. Except during an emergency situation you must have a FCC Amateur Radio License to **transmit** on frequencies identified on the Ham bands and refrain from **transmitting** on other bands contained on this product if using a radio not certified for use by the FCC. The product creator assumes no responsibility for the use of these frequencies obtained from web-based resources. [Listening to Ham Radio is always OK and a good way to get started in the hobby.](#) KEØKPO
